Buffalo Chicken Dip

Cooking Instructions

This is an all-in-one dish.

Freezer to Oven: QuickThaw dip by transfering dip to microwave-safe container and microwaving a few minutes at 50% power, or thaw in refrigerator. Preheat oven to 350F. Transfer dip to an oven-safe serving dish. A pie plate, small casserole, or ramekin works great. Optionally, you can sprinkle a little feta or bleu cheese on top before baking. Bake 30-40 min until top is golden brown and dip is bubbling. Baking time will vary depending on dish size.

Microwave: Transfer contents to microwave safe dish. Microwave at 50% power for 4-5 minutes, stir, and continue to microwave at 50% power until steaming throughout.

Internal Temperature: 165F.

Serving Suggestions: Serve with sliced baguette, crackers, or even crudités!

Please Note: Cooking times are estimates and vary based on your actual oven, stovetop, or slow cooker, as well as item thickness and starting temperature. For best results, always verify the internal temperature of your meals. We recommend instant-read pocket thermometers – they are inexpensive, convenient, and very easy to use.
